

## QUALITY and ENVIRONMENTAL POLICY

It is the policy of Brown & Holmes (Tamworth) Ltd to maintain complete customer satisfaction by meeting the requirements of EN ISO9001:2008 and EN ISO14001:2004 and compiling with customer statutory, regulatory and legal requirements.

We recognise that our activities results in both the direct and indirect impacts on the environment and to that end Brown & Holmes (Tamworth) Ltd is committed to continuous improvement of our quality and environmental performance, methods of production, reduction of waste and prevention of pollution. Improvements will be monitored by the use of Monthly KPI's which consider all aspects of the business activities and Senior Management commitment to Customer satisfaction.

Intentions:

- We are committed to design, manufacture and delivery of quality products in the field of precision Jigs, Fixtures, Gauges, Mechanical Handling Equipment and precision components including Automation and Installation that meet or exceed our Customers' expectations.
- To comply with all relevant legislation and regulations within the scope of our activities.
- To maintain and develop the processes and resources required, including machinery and personnel, in order to meet our objectives and targets.

Implementation of this Policy will be assured by a means of a documented and integrated management system subject to regular audits and management reviews.

Management Review meetings will provide the framework for establishing and reviewing Policies, Objectives, action plans and overall performance in respect to Quality and the significant Environmental aspects.

The Policy and Objectives shall be communicated to all employees who shall be responsible for understanding and implementing the requirements to ensure achievement of a quality product and service, which complies with all codes of practice and industrial standards to which we subscribe.

The management is committed to achieving the manufacture of products that are right first time, every time.
